

Emigrants from Singsås to America

The emigration to America started in 1850. The first emigrant was Jens Hansen Mahlum. In the period 1850-1911 482 persons travelled to various places in the states and Canada. The number of emigrants increased until 1882 when the emigration reached the top with 35 leaving.

Many are listed with surnames they probably didn't have the right to carry. They've probably mentioned the farm where they either worked or stayed at before leaving the district, and then it's been written down as their surname.

This list is taken from the book Singsåsboka vol. 1, part 1, p.565.
